

DEFINING MOMENTS DÉTERMINANTS CANADA

We're pleased to tell you about an innovative project that Neil Orford, past recipient of the Governor General's History Award, and Blake Heathcote, bestselling author, are proud to present. **Defining Moments Canada** has created a national initiative to commemorate the 100th anniversary of the **Spanish Flu Pandemic** in Canada, a plague that impacted every community across our country as well as tens of millions of people around the world.

The national launch of the project is on May 2nd, 2018.

This is a digital commemoration opportunity for teachers across Canada, hosted on a fully bilingual platform that features a generous array of free learning resources, research tools, teacher resources, digital assets, and storytelling techniques. It will culminate in a national contest in the spring of 2019 that will showcase the most innovative and compelling projects carried out using this platform.

Sign up your students to create a commemorative project on the Pandemic and get all of these wonderful resources for free online at DefiningMomentsCanada.ca!
